Wavy
Unsatisfied

The Same Old...

Are you completely satisfied with the current default siding materials that you have been using?

—

Does it create the look that you envisioned? Or does it look the same as everyone else?

—

Does it hold its aesthetic appeal long term? Or is there room for improvement?

Poor Performance

Interior upgrades are standard now. It has all been done before.

Interiors – It's All Been Done

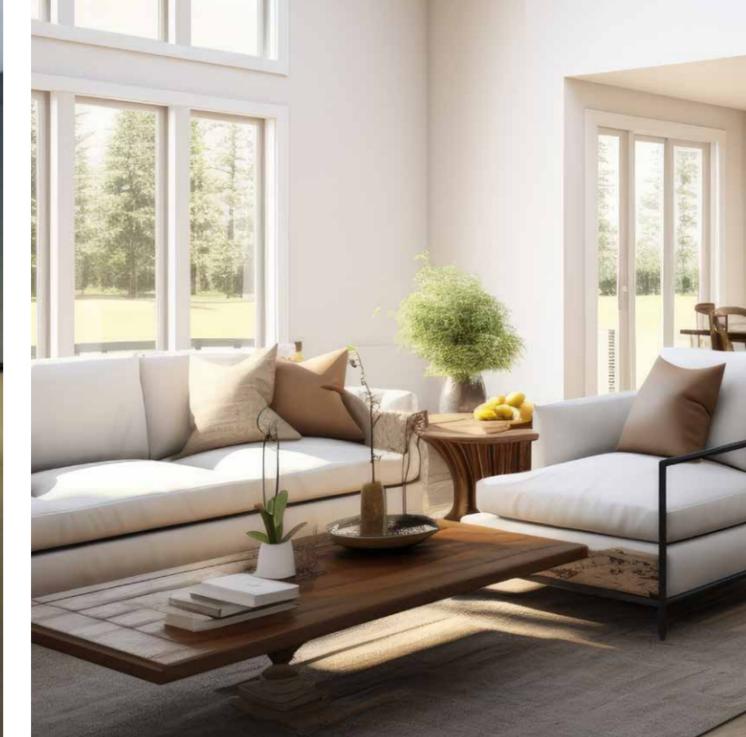

Interior upgrades are considered standard now.

Money spent on interior upgrades offer a diminishing return, so what's next?

How do you differentiate from past projects and old inventory coming back onto the market?

You must draw customers in to appreciate these upgrades

Imagine.

- Powder Perfect Paint for Striking Results
- High-Quality Floating Wall System
- Consistent Tongue & Groove, Clip & Slide Assembly
- Fully-Customized Exterior Solutions
- Elevated Visual Impact & Curb Appeal
- Ultra-Durable, Sustainable Exterior
- Faster Installation, Reduced Costs

ENGINEERING EVALUATION REPORT

Date	2023-02-17
Report Number	0093-12-1
Client Name	FastPlank Systems Inc.
Address	101-4441 76th Ave SE, Calgary, AB T2C 2G8

Subject

FastPlank Systems aluminum siding planks. Method of Salt Spray (Fog) Test Results.

Product Description

FastPlank Systems are aluminum siding planks with fastening clips and trim accessories, serving as an exterior wall. Planks are extruded 3/64 in. thick aluminum with a V-Notch™ profile, available in widths of 4 in. or 6 in. and in 16 ft lengths. The plank exterior surface is typically finished with a powder-coat paint in a variety of colors.

Evaluation

Testing of the siding planks has been conducted in accordance with the referenced test standards at Intertek - York location. Intertek is an independent testing laboratory accredited by the International Accreditation Service (IAS).
