

EasyTrim®
Reveals

The foundation system. Proven. Versatile.

- Designed for pristine panel alignment and edge protection
- Ideal for straightforward façades and repeatable layouts
- The system that established the EasyTrim standard

Best for:

Panel alignment · Field efficiency · Classic reveal control

EasyTrim®
Streamline

A Bold Edge. Confident simplicity.

- No visible reveal line—clean geometry with added engagement
- Maintains a standard tab width for familiarity and stability
- Bold in its restraint. Built for repeatable precision.

Best for:

Flush panel applications · Monolithic façades · Seamless surfaces

EasyTrim®
Mono

Single-Tab Profile. Zero reveal. Maximum restraint.

- No visible reveal line, clean geometry
- Creates a smooth, monolithic façade appearance
- Minimalist by design, precise by execution

Best for:

Flush panel applications · Minimalist expression · Seamless surfaces

LAP AND PANEL TRIMS WITH REVEALS

Designed for pristine panel alignment and dependable edge protection, this system is ideal for straightforward façades and repeatable layouts. It's the trim that established the EasyTrim standard.

BOLD PANEL TRIMS WITHOUT REVEALS

Clean geometry without a reveal line, enhanced by added engagement.
A standard tab width delivers familiarity and stability for repeatable,
precision-driven applications.
