

Preface

This guide has been developed to assist in identifying the EasyTrim Elegance® profile that replaces each EasyTrim Reveals® profile. Effective October 1, 2026, new EasyTrim orders in the 5/16" and 3/4" systems are supplied as EasyTrim Elegance® unless the customer specifically requests original EasyTrim Reveals® for an ongoing project.

Elegance carries the same profile numbering as Reveals with an **-E** suffix (EZ 1 becomes EZ 01-E). Where a Reveals profile has a same-numbered Elegance profile, that profile is the direct equivalent and should be used. (Figure 1.1)

Where a Reveals profile has no same-numbered Elegance profile, the closest Elegance alternatives are listed based on function, appearance, and application, with the closest match first. (Figure 1.2)

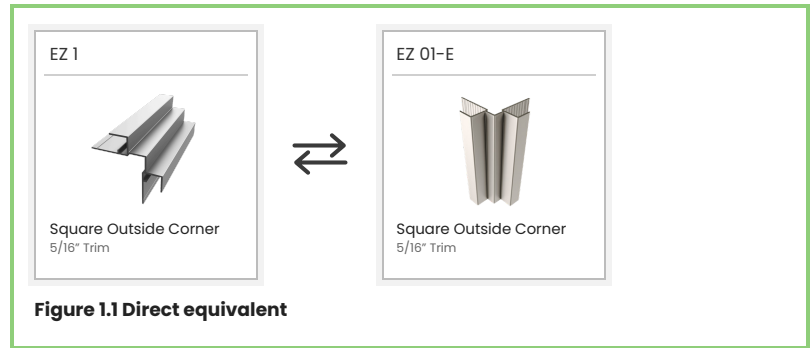

Figure 1.1 Direct equivalent

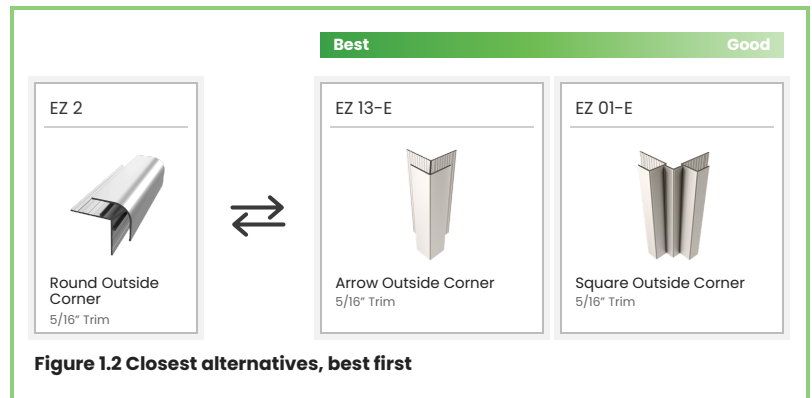

Figure 1.2 Closest alternatives, best first

How to Read This Guide

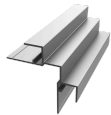

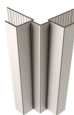

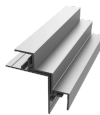

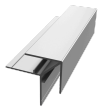

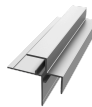

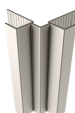

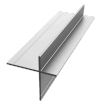

Each row begins with the EasyTrim Reveals® profile being replaced. The exchange symbol indicates that the profile or profiles listed to the right are the EasyTrim Elegance® replacement.

Rows tagged **Direct equivalent** show the same-numbered Elegance profile. Rows tagged **Closest Elegance alternative** show substitutes arranged from left to right, with the closest functional and aesthetic match listed first. When selecting a substitute, always choose the leftmost compatible option before considering those farther to the right.

Rows marked **No Elegance equivalent** have no counterpart in the Elegance range and remain on EasyTrim Reveals® stock.
